It must produce an even and uniform film thickness at the required coverage rate and must apply markings of uniform cross sections and clear-cut edges without running or spattering and without over spray. The bead dispensing system must be pressurized, no gravity feed systems will be allowed on paint trucks or hand strippers. Excess glass beading must be removed from non-painted surfaces by the contractor.

All vehicles must be professionally marked company vehicles and equipped with a rotating beacon. The contractor's name must be affixed to both sides of each vehicle and identifiable from the Air Traffic Control Tower.
5. Parking on the airfield, in authorized areas, while working, is at no cost. Any unauthorized parking (i.e. around the terminal, public areas, parking garages, etc.) is subject to associated costs (towing).

## **F. RUBBER REMOVAL REQUIREMENTS**

1. At commencement of work, the Contractor shall clean a small area of pavement to determine the most effective combination of water pressure and forward speed needed to remove rubber build-up on the runways.
2. While Contractor makes the final adjustment of the equipment, the pavement must be marked with paint to show the starting point of the work as well as the width to be cleaned on either side of the runway's centerline. A similar group of paint marks must be placed to show the point to be reached at the end of the first night's work. If necessary, additional width marks may be required.
3. Areas of each runway may not require rubber removal. In required areas of rubber removal, the maximum width of pavement to be cleaned is 30 feet on either side of the runway's centerline, unless specifically indicated by the airport's on-site inspector, in which case, markings will be readjusted and noted in the daily log. The width of the area to be cleaned shall be marked to indicate widths smaller than the above-mentioned width, but never less than 15 feet in the areas that require cleaning. These dimensions will serve to determine the amount of work completed every night. The Contractor and the field inspector must agree on the quantities of pavement cleaned at all times. The sum of areas cleaned shall not exceed the amount indicated in these specifications and/or as directed.
4. Vehicles acting as support to the water-blasting machine shall not be allowed to track (with their wheels) dirt onto the clean pavement. Any support vehicle used as support to the main water blaster shall be located between the cleaning machine and the nearest runway's shoulder.
5. Instead of using a water truck to rinse the pavement of rubber particles, it is recommended that the water-blasting machine be used to spray the loose rubber particles to the edge of the pavement where a vacuum truck may pick-up and dispose of all the removed rubber.
6. Payment will be based on unit price per square foot of the area measured for rubber removal, after Airport Operations has accepted the final work. Unit Prices shall include the removal of rubber and clean up and disposal.

## **G. SAFETY**

For any years this Contract is extended, BTR reserves the right to determine if the Contractor shall perform friction testing or to consider another contractor to perform such services.
2. Before every friction test day, the test equipment shall be calibrated following the instruction manual that shall be available during each test in the presence and participation of by BTR or its Authorized Representative.
3. Test results shall be provided to BTR or its Authorized Representative immediately after each run or as directed. Results shall be generated by the friction-testing equipment's "on-board" computer.

4. The initial, final and other required tests shall be performed by the same equipment. The Contractor shall be responsible that friction testing equipment is in working order. Retesting due to faulty equipment shall be done at the Contractor's expense.
5. After any rubber removal work has been completed; friction tests will be performed within the next 5 days by an outside source. The results must indicate that the friction values (Mu) have been restored to within 10% of the Mu values measured at the uncontaminated center portion of the runway. The resulting Mu readings will determine the need to repeat the rubber removal work. Any area requiring additional cleaning and friction testing will be at the Contractor's expense.
6. Payment will be based on unit price per linear foot for friction testing, after Airport Operations has accepted the final work.

**J. REQUIRED REFERENCE MATERIAL: These specifications shall be enforced before, during and after the marking's removal and the possible reapplication of the markings.**

Such action shall include, but not be limited to the following:
- b) Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. - d) The CONTRACTOR will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the CONTRACTOR's legal duty to furnish information.
- e) The CONTRACTOR will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the CONTRACTOR's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, The CONTRACTOR may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, that if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

The term EBE shall have the meaning set forth in the City-Parish's Socially and Economically Disadvantaged Business Enterprise Certification Program.

The Program is a race- and gender-neutral program intended to provide additional contracting and procurement opportunities for certified small, disadvantaged, woman-owned, minority-owned, veteran-owned, and service-disabled veteran-owned business enterprises by encouraging contractors who receive City-Parish contracts to use good-faith efforts to utilize such certified entities in the performance of those contracts. The City-Parish desires to achieve, to the greatest extent possible, commercially meaningful and useful participation by EBEs. By providing equitable opportunities for EBEs, the City-Parish derives multiple benefits, including contributing to the economic vitality of our communities and ensuring a broader selection of competitively priced goods and services.

Contractor should present a responsible plan that provides for participation of qualified EBEs. Participation shall be counted toward meeting the contract goals only by business entities certified under the City-Parish's Socially and Economically Disadvantaged Business Enterprise Certification Program. The direct participation goal can be achieved through direct ownership, joint venture participation, owner/operator agreements, or subcontract agreements for participation.

If the Contractor does not meet the full EBE goal, then written documentation must be provided showing their good faith efforts to secure EBE participation, the unavailability of potential EBE firms, and provide justification as to why such goals cannot be met that is found to be acceptable to the SEDBE Liaison Officer.

(B) **FAILURE TO COMPLY WITH SEDBE REQUIREMENTS:** All City-Parish contract performers (Prime Contractors, Subcontractors, etc.) are hereby notified that failure to carry out the EBE obligation, as set forth, shall constitute a breach of contract. The breach of contract will be reviewed by City-Parish which may result in termination of the contract or other remedies deemed appropriate for the given situation.

(C) **SUBCONTRACTS:** All Prime Contractors, and Subcontractors, hereby shall include the following clauses in all contracts that offer further subcontracting opportunities.

The Contractor or Subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The Contractor shall carry out applicable requirements of City-Parish's Socially and Economically Disadvantaged Business Enterprise Program in the award and administration of City-Parish contracts. Failure by the Contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient (City-Parish) deems appropriate.

The Prime Contractor agrees to pay each Subcontractor under this contract for satisfactory performance of its contract prior to submitting an invoice to the City-Parish for request for payment. This payment will be documented on the Contractor's Monthly Report form that is submitted with each payment request. The Prime Contractor agrees further to return retainage payments to each Subcontractor within 14 days after the Subcontractor's work is satisfactorily completed. Any delay or postponement of payment from the above referenced time frame may occur only for good cause. This clause applies to both EBE and non-EBE Subcontractor(s).

(D) AWARD OF EBE SUBCONTRACTS: The Contractor shall, no later than three (3) business days from the award of a contract, execute formal contracts or purchase orders with the EBE(s) included on Form 1.

(E) COUNTING EBE PARTICIPATION: City-Parish will count EBE participation toward overall and contract goals as provided in City-Parish's Socially and Economically Disadvantaged Business Enterprise Program ("the Program"). City-Parish will only count EBE participation by those EBEs performing commercially useful functions. City-Parish Purchasing Division will not count the participation of EBE Subcontractors toward a Contractor's final compliance with its EBE obligations on a contract until the amount being counted has actually been paid to the EBE.

The Contractor may count its entire expenditure to EBE manufacturers (i.e., a supplier that produces goods from raw materials or substantially alters them before resale). The Contractor may count sixty percent (60%) of its expenditures to EBE suppliers that are not manufacturers, provided that the EBE supplier performs a commercially useful function in the supply process.

A Contractor shall not count the value of any payment made to an EBE for work that was further subcontracted out by the EBE to a non-EBE.

## **PART II – PROCEDURE TO DETERMINE QUALIFICATION STATEMENT OR PROPOSAL COMPLIANCE**

(A) **ELIGIBILITY OF SEDBEs:** To be counted toward the participation Goals pursuant to the Program, an EBE must be certified by the City-Parish at the time a bid or proposal is submitted. The fact that an EBE is certified does not necessarily mean that it has the qualifications and experience for the type of work required by any particular Contract. The responsibility for determining whether an EBE has the qualifications and experience for the type of work required by the Contract rests with the Contractor. To be deemed an EBE certified entity, firms must complete the City-Parish's certification process. Only EBE certified firms under the City-Parish at the time the Bid opening will count toward the EBE goal.

(B) **REPORTING FORMS 1, 1A, AND 2:** The following fully completed forms shall be furnished to the City-Parish on a monthly basis. The forms shall have all blank spaces filled in completely and correctly. These forms are as follows:

**FORM 1 – EBE RESPONSIVENESS FORM (copy attached):** It is the obligation of the Respondent to make good faith efforts to meet the EBE goal. Respondents can demonstrate their good faith efforts either by meeting the contract goal or by documenting good faith efforts taken to obtain EBE participation. The Form 1 shall accurately detail the work proposed by the Respondents to be performed by Respondent and all entities participating in the project and, if it is a bid or proposal, the percent value of that work. If a Respondent is unable to fully meet the EBE goal of this contract, the Respondent shall submit a Form 2 form and all documentation demonstrating the good faith efforts made to comply with the EBE requirements.

**FORM 1A - REQUIRED PARTICIPATION QUESTIONNAIRE FORM (copy attached):** Form 1A shall accurately detail the work to be performed by each and every firm participating in the project. A Form 1A must be submitted for the Contractor and for each Subcontractor included on Form 1. In addition, each participating EBE firm must submit a current letter of EBE certification along with its Form 1A.

**FORM 2 - Good Faith Efforts (copy attached):** Form 2 is only required when the prime firm is unable to fully meet the EBE contract goal. Form 2 shall provide documentation of good faith efforts made to obtain EBE participation. Form 2 must be accompanied by supporting documentations such as, but not be limited to, phone logs, facsimiles, and e-mail correspondence with potential EBE firms. Further explanation of good faith efforts may be found in the Instructions for Form 2. It is up to City-Parish or its Designee to make a fair and reasonable judgment whether a Respondent made adequate good faith efforts to achieve the contract goal.

**FORM 3 - Monthly Utilization/Participation SEDBE Report (copy attached):** Form 3 shall be submitted to the Field Engineer along with monthly payment requests and shall accurately represent the amount paid to EBE Subcontractors during that invoice period. This form must be submitted with every monthly invoice regardless of the amount of payment or lack of payment. The form shall be signed by the Contractor and the SEDBE Subcontractor(s) if payment has been made for that month. SEDBE participations will not be counted toward the Contractor's commitment until payment has been rendered to the SEDBE. Failure to submit the required reports may result in withholding of payment or partial payments to the Contractor until the required forms are submitted.

## CITY OF BATON ROUGE AND PARISH OF EAST BATON ROUGE

### Form 2

### Good Faith Efforts

### INSTRUCTIONS:

If required, attach a completed Form 2 and supporting documents to establish that Good Faith Efforts were undertaken to secure EBE participation:

The following is a list of types of actions which you should consider as part of the Contractor's good faith efforts to obtain EBE participation. It is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases.

- A. Conducting market research to identify small business contractors and suppliers and soliciting through all reasonable and available means the interest of all certified EBEs that have the capability to perform the work of the contract. This may include attendance at pre-bid and business matchmaking meetings and events, advertising and/or written notices, posting of Notices of Sources Sought and/or Requests for Proposals, written notices or emails to all DBEs listed in the State's directory of transportation firms that specialize in the areas of work desired (as noted in the DBE directory) and which are located in the area or surrounding areas of the project. The Contractor should solicit this interest as early in the acquisition process as practicable to allow the EBEs to respond to the solicitation and submit a timely offer for the subcontract. The Contractor should determine with certainty if the EBEs are interested by taking appropriate steps to follow up initial solicitations.
- B. Selecting portions of the work to be performed by EBEs in order to increase the likelihood that the EBE goals will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units (for example, smaller tasks or quantities) to facilitate EBE participation, even when the Contractor might otherwise prefer to perform these work items with its own forces. This may include, where possible, establishing flexible timeframes for performance and delivery schedules in a manner that encourages and facilitates EBE participation.
- C. Providing interested EBEs with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation with their offer for the subcontract.
- D. Negotiating in good faith with interested EBEs. It is the Contractor's responsibility to make a portion of the work available to EBE subcontractors and suppliers and to select those portions of the work or material needs consistent with the available EBE subcontractors and suppliers, so as to facilitate EBE participation. Evidence of such negotiation includes the names, addresses, and telephone numbers of EBEs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional Agreements could not be reached for EBEs to perform the work.
- E. A Contractor using good business judgment would consider a number of factors in negotiating with subcontractors, including EBE subcontractors, and would take a firm's price and capabilities as well as contract goals into consideration. However, the fact that there may be some additional costs involved in finding and using EBEs is not in itself sufficient reason for a Contractor's failure to meet the contract EBE goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the Contractor of the responsibility to make good faith efforts. Prime contractors are not, however, required to accept higher quotes from EBEs if the price difference is excessive or unreasonable.

- F. Not rejecting EBEs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The contractor's standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations (for example union vs. non-union status) are not legitimate causes for the rejection or non-solicitation of bids in the contractor's efforts to meet the project goal. Another practice considered an insufficient good faith effort is the rejection of the EBE because its quotation for the work was not the lowest received. However, nothing in this paragraph shall be construed to require the Contractor to accept unreasonable quotes in order to satisfy contract goals.
- G. Contractor's inability to find a replacement EBE at the original price is not alone sufficient to support a finding that good faith efforts have been made to replace the original EBE. The fact that the contractor has the ability and/or desire to perform the contract work with its own forces does not relieve the contractor of the obligation to make good faith efforts to find a replacement EBE, and it is not a sound basis for rejecting a prospective replacement EBE's reasonable quote.
- H. Making efforts to assist interested EBEs in obtaining bonding, lines of credit, or insurance as required by the recipient or contractor.

Making efforts to assist interested EBEs in obtaining necessary equipment, supplies, materials, or related assistance or services.

Effectively using the services of available minority/women/veteran community organizations; minority/women/veteran contractors' groups; local, State, and Federal minority/women/veteran business assistance offices; and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and placement of EBEs.
