

# Attachment D - Drawing

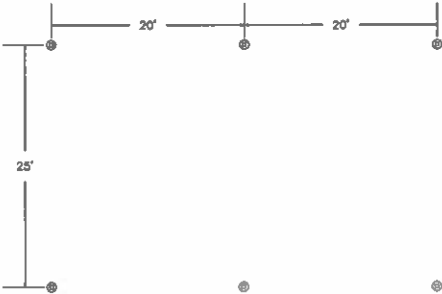

## RFx 3000022535

**NOTES**

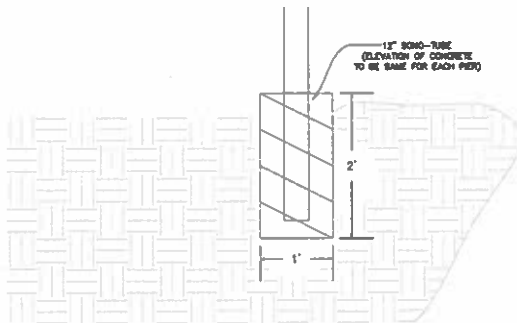

1. New canopy to be constructed using red iron 4x4 posts with red iron 4x4 I beam & 2x8 C purlins for structure. C purlin placement dependent upon insulator, however 3' o.c. for roof purlins is expected.
2. All red iron will be painted prior to installation of roofing material.
3. Roof design to be based on a 6 on 12 roof pitch.
4. Dimensions shown on new Canopy are for expectation purposes. Actual structure may vary slightly from drawings based on insulator requirements for metal structure.
