TITLE: ADA Self-Evaluation and Transition Plan

Addendum 01: Notice is hereby given to all parties that this Solicitation is amended by the University as stated herein. This Addendum is hereby made an official part of this Solicitation. See attached for respondent inquiries and responses.

*This area left intentionally blank.*

Addendum 01

RFQ-0000002121

Respondent Inquiries and Responses

Q1) Can the University provide a list of the facilities to be assessed, as well as the following information about them?

- Square footage
- Year Built/Renovated

R1) Appendix A.1 in the Compliance Plan linked in Section 1.2 of the RFP details square footage and dates built/renovated, to the extent such information is available. Additionally, the facilities to be assessed are identified in the Compliance Plan by priority in tiers 1-5. Our desire is to have tiers 1-3 assessed but 4 and 5 need not be included.

Q2) Is Campus circulation/sidewalks to be included in the assessment?

- If so, can the University provide:
  - Estimated number of curb ramps
  - Estimated number of signalized intersections
  - Estimated number of linear miles of sidewalk
  - Estimated number of transit stops

R2) Yes, campus circulation/sidewalks are to be included in the assessment.

- The estimated number of curb ramps is 515. This includes any ramps where sidewalks intersect streets or driveways around campus.
- The estimated number of signalized intersections is 10. All such intersections are managed by the city but are on campus or just outside the gates of campus.
- The estimated number of linear miles of sidewalk is 50 miles, as detailed in Section 3.4.1 of the Compliance Plan.
- The estimated number of transit stops is approximately 50, including bus stops, benches and shelters, as detailed in Section 3.5 of the Compliance Plan. Detailed stops and shelters to be included in the plan are documented in Appendix A.2 of the Compliance Plan.

Q3) Is LSU open to receiving a proposal for that component of work alone (audit, remediation & training) or are you looking for one vendor to accomplish both physical and digital accessibility?

R3) We are looking for one proposal to cover the entire scope of work.

Q4) Will firms involved in the planning efforts be excluded from submitting on this opportunity?

R4) As stated in the Higher Education Procurement Code LAC 34:XIII.2303(E): Any person or entity, and any parent or subsidiary business entity of any entity contracting with university for the purposes of developing an ITB, RFP, or any other type of solicitation related to a specific procurement shall be

prohibited from bidding, proposing, or otherwise competing for award of that procurement. Such persons or entities shall also be prohibited from participating as subcontractors related to performance of a contract resulting from that procurement.
