CODE OF SILENCE:

From the date the RFP is issued; through the time the Agreement is finally awarded by NOLA-PS Elected Officials, Proposers shall not contact any Representatives of NOLA-PS, nor the District Staff, nor their Advisors or Consultants with respect to this RFP, or RFP process, other than to submit questions or protest in accordance with the Instructions to Proposers therein. This prohibition does not apply to questions or comments sent in writing to the Executive Director of Procurement, or questions made at Pre-Proposal conferences, in presentations before evaluation committees, or during contract negotiations. Proposers who violate this Code of Silence may be deemed non-responsive, and their proposal may be rejected for cause.

REQUEST FOR PROPOSAL DOCUMENTS: A complete set of Request for Proposal documents shall be used in preparing proposals; neither the Orleans Parish School Board nor its representatives assume any responsibility for errors or misinterpretations resulting from the use of incomplete sets of Request for Proposal Documents.

The forms furnished as part of the specifications **MUST** be used for filing of Request for PROPOSALS and must be signed by the proposer. No proposals will be considered unless made on the forms provided and must not be detached from the proposal document of which it forms a part. Failure to follow these instructions may result in your proposal being disqualified.

OBJECTION TO THE AWARD: If any Proposer who submitted a proposal has an objection to the award of the contract to the Selected Proposer, the objecting Proposer shall furnish that protest, in writing, to the Executive Director of Procurement (or Designee) within ten (10) Business Days of the notification of non-award. The protest shall describe in detail the basis for the protest and shall request a determination under this section of the Instructions to Proposers.

If a protest is filed in a timely fashion, the Executive Director of Procurement (or Designee) will review the basis for the protest and relevant facts under such terms and conditions as he considers proper. Upon completion of the review, the Executive Director of Procurement (or Designee) shall submit applicable findings and recommendations to the Superintendent and/or Chief Financial Officer, who shall then review the matter under such terms and conditions, as deemed proper. Upon receipt of authority to act from the Superintendent or NOLA-PS, the Executive Director of Procurement (or Designee) will notify those Proposers involved of its decision. The decision shall be final and binding on the objecting Proposer.

WITHDRAWAL OF BID: Any bid may be withdrawn if clear and convincing sworn, written evidence of obvious mechanical, clerical or mathematical error is furnished by the proposer to the Executive Director of Procurement within 48 hours of proposal receipt.

SUPPLIER PERFORMANCE AND EVALUATION: The proposer, vendor, service provider and/or supplier performance process will involve evaluating the proposer, vendor, service provider and/or supplier's overall quality status, as well as evaluating the quality of each material or service the NOLA-PS wishes to purchase. Prior to the invoice submission, the proposer, vendor, service provider and/or supplier, shall meet with a purchasing representative to discuss and review deliverables and timeline events for said services. Contract with automatic renewals will be based upon the NOLA-PS evaluating and analyzing proposer, vendor, service provider, and/or supplier performance.

DEBARMENT AND SUSPENSION: To ensure that the Orleans Parish School Board does not enter into a contract with a debarred or suspended company or individual, each responsive proposer must include a certification statement with each bid. By signing the certification statement, the proposer certifies that neither it nor any of its principals (e.g., key employees) have been proposed for debarment, debarred or suspended by a Federal Agency. It is the responsibility of each proposer to sign the attached certification statement and submit it with the bid. Failure to comply with this requirement will cause your bid to be disqualified and declared non-responsive.

BACKGROUND CHECK: Contractor will not employ any person to provide services who has been convicted, or pled nolo contendere to, any one of the crimes listed in the Louisiana Child Protection Act. La R.S. 15:587.1 (C). Criminal History Record must be obtained by contractor for all employees

to be hired and shall be retained during the duration of the employment. Records are to be updated on an annual basis.

PERFORMANCE INVESTIGATIONS: As part of the proposal evaluation process, the NOLA-PS may make inquiries and investigations, including verbal or written references from the firm's customers, to determine the ability of the firm to provide service.

EMPLOYMENT: It is understood that all employees will be employees of the successful firm(s), including but not limited to the successful firm's subcontractors, partners, etc.

NOTICE TO OFFEROR: The NOLA-PS shall consider the intentional employment by the selected firm of unauthorized aliens in violation of U.S. immigration laws cause for unilateral cancellation of the contract resulting from this RFP.

PROPOSAL FORMAT: Proposals should be prepared simply but completely, providing a straightforward, concise description of capabilities to satisfy the requirements of the RFP. Please carefully read Sections as outlines within the Table of Contents. Emphasis should be on completeness and clarity of content.

SELECTION: Selection shall be made of one or multiple firm(s) deemed to be fully qualified and best suited among those submitting proposals on the basis of the evaluation factors contained in this RFP. Fee structure/pricing will be considered, but will be one among many determining factors. The NOLA-PS may cancel this RFP, reject proposals or any portion thereof at any time prior to an award, and is not required to furnish a statement of the reason why a particular qualification was not deemed to be the most advantageous. Should the NOLA-PS determine in writing and in its sole discretion the firm(s) that is fully qualified, or that one firm is clearly more highly qualified than the others under consideration, a contract may be awarded to that firm.

DISADVANTAGED BUSINESS ENTERPRISE (DBE) PROGRAM:

The Disadvantaged Business Enterprise (DBE) Program is race & gender-neutral, and open to all business owners regardless of race, ethnicity or gender. DBE firms currently certified with the Louisiana Unified Certification Program (LAUCP), or the State & Local Disadvantaged Business Enterprise (SLDBE) Program must submit a copy of their certification letter for eligibility with the offer/response to this solicitation.

The Proposer shall submit the following forms below: **(Appendix B)**

- DBE Responsiveness Form 1
- DBE Responsiveness Form 2
- DBE Certification Letter (for each company)
- DBE Professional Services Compliance Certification Checklist

DBE Provisions (Attached), which is hereby made a part of this RFP. Failure to include DBE participation; including all signatures and notary, shall cause a firm's proposal to be non-responsive and cause for rejection. **All DBE forms must be properly completed whether or not they are applicable to Proposer.**

COMPUTED COST SCORE:

The cost evaluation shall constitute ten (10%) of the total points assigned and will be based upon standard cost rates submitted by the proposers. The proposer with the lowest cost shall receive the highest cost evaluation score. Other proposers will receive a cost score computed as follows:

$$\text{CSF} = (\text{LPC}/\text{PC} * \text{X})$$

CSF = Cost Scoring Formula
LPC = Lowest proposed cost
PC = Proposer's cost
X= n% of the total number of points assigned

PURCHASES USING FEDERAL GRANT FUNDS (2 C.F.R. 200).

When NOLA-PS seeks to procure goods and services using funds under a federal grant or contract, specific federal laws, regulations, and requirements may apply in addition to those under state law. This includes, but is not limited to, the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2C.F.R. 200 (sometimes referred to as the “Uniform Guidance” or new “EDGAR”). (EDGAR FORM ATTACHED)

All Vendors awarded a contract under this proposal must complete the NOLA-PS EDGAR Contract Addendum before a purchase order can be entered as proof of their willingness and ability to comply with certain requirements which may be applicable to specific NOLA-PS purchases using federal grant funds.

This information will be made available to the NOLA-PS for its use while considering their purchasing options when using federal grant funds.

1.2 Purpose

NOLA Public Schools (NOLA-PS) is a community of public schools servicing over 45,000 students. Over 92% of students are non-white and over 80% are economically disadvantaged. NOLA-PS believes all students deserve to be served in high quality school facilities. Today, we work to overcome adversity and work to champion resilience to pursue the promise of quality education for all students. In our district, students can grow and learn to be well-prepared, engaging leaders in the community, in business, and in public life. Please visit the NOLA-PS About Us section for more information of who we are and who we serve.

NOLA-PS has received the Community Power Accelerator prize to implement community solar projects on properties owned by the Orleans Parish School Board (OPSB) in New Orleans. This RFP seeks to fulfill the initial requirements of the prize, which include community solar development at two (2) total sites, with total power generation capacity of at least 5 MW. In order to meet these requirements and develop a model for solar implementation at future sites, NOLA-PS has identified two active OPSB-owned school campuses (the “Properties”) with excess land that can accommodate community solar developments: G.W. Carver High School (3059 Higgins Blvd.) and Abramson Sci Academy (5552 Read Blvd.).

Qualified solar developers (the “Proposers”) are invited to submit proposals (“Proposals”) to own, finance, design, install, operate, monitor and maintain community shared solar photovoltaic projects (collectively, the “Projects”) at the designated Properties.

NOLA-PS' goals for the Projects include:

- Provide NOLA-PS students' families, local neighborhood residents in areas surrounding the project, and other low- and moderate-income (LMI) households across New Orleans an opportunity to save money by switching to lower-cost solar power.
- Provide NOLA-PS schools an opportunity to save money by switching to low-cost solar power.
- Offer subscribers at least 25% savings from typical costs of electric power in New Orleans.
- Coordinate with local workforce development programs and NOLA-PS schools to provide job training and educational opportunities.
- Provide business opportunities for certified DBE firms in the solar industry.
- Provide lease revenue to OPSB.

All Projects developed under this RFP will be community shared solar or remote net crediting systems—installations that will generate power on their own meters (not behind a NOLA-PS meter) and whose output will be shared among multiple off-site subscribers. NOLA-PS will not purchase or receive credits for any of the power produced by these systems. NOLA-PS cannot cover any costs, capital or otherwise, associated with the Projects. NOLA-PS shall not provide any financial security (i.e., letter of credit, guarantee, etc.) or encumbrances to secure its obligations under a Lease Agreement. NOLA-PS will host the solar installations through Lease Agreement(s) (the "Lease(s)"). The term ("Term") of the Leases shall be 20 years (the "Initial Term"), with one optional 5-year renewal period (the "Renewal Period"), exercisable at NOLA-PS's sole discretion by written notice to the Project Developer(s).

Please note that final approvals to proceed will be contingent upon finalizing terms for the construction finance and long-term capitalization of the solar Projects. While NOLA-PS has every reasonable intention to complete the proposed Projects, NOLA-PS cannot guarantee that any solar project will be implemented based on responses to this solicitation.

1.3 School District Profile

OPSB currently oversees 71 charter schools and a school with two educational programs for students in secure-care facilities

One of the District's core responsibilities, as a charter school authorizer, is to hold these schools accountable to a set of performance expectations that help ensure every student is provided with a high-quality education.

The vision of the OPSB is as follows: every student receives a high-quality education that fosters their individual capabilities, while ensuring that they thrive and are prepared for civic, social, and economic success.

The District's geographical boundaries are concurrent with those of the City of New Orleans. The District, however, is a separate entity, independent of the City of New Orleans. The District's governing body is a seven-member elected board.

The District serves more than 43,875 students across Orleans Parish. As of February 2022, the student population was approximately 77.41% African American, 10.71% Hispanic, 8.09% White, 1.65% Asian, 1.9% Multi-Racial, and .18% Native American. Further, the District serves a student population that is 86.22% economically disadvantaged. Approximately 7.28% of the students have

limited English proficiency.

The District's administration has approximately 269 employees. The District's total proposed general fund budget for 2022-2023 is \$556 million dollars, system-wide, and of that \$35.5 million is allocated to the District's administration.

PROPOSAL REJECTION: NOLA-PS shall have the right to reject any or all proposals and in particular to reject a proposal not accompanied by data required by the RFP or in any way incomplete or irregular, including omission of cost and budget information, i.e. in the best interest of NOLA-PS. Conditional proposals will not be accepted.

CONTRACT AWARD: Award shall be made to the Most Qualified Proposer(s) whose proposal is determined to be the most advantageous; thus, when taking into consideration the evaluation factors set forth in the sections that follow, including overall long-term value to the NOLA-PS. Fees/pricing consideration will not be the sole determining factor. There is no obligation on the part of the NOLA-PS to award a contract.

CONTRACT TERM AND RENEWAL: Contract term will be for a period of 20 years with an optional five-year renewal period . If warranted terms and conditions for an amendment to the contract will be in writing, negotiable and subject to NOLA-PS approval

ERRORS: NOLA-PS is not liable for any errors or misinterpretations made in responding to this Request for Proposal.

PROPOSAL SUBMISSION: One electronic original Proposal document to be submitted as per date and time established/set within this Request for Proposal.

INQUIRIES: NOLA-PS will not give verbal answers to inquiries regarding the Request for Proposals, or verbal instructions prior to the award of a contract. A verbal statement regarding same by any person shall be non-binding. The NOLA-PS is not liable for any increased costs resulting from the acceptance of verbal direction. Cost or problems associated with misinterpretation of the intent of the NOLA-PS will be the responsibility of the proposing firm.

All inquiries must be in writing and addressed to: Paul A. Lucius, Executive Director of Procurement at procurement@nolapublicschools.com. All inquiries will be answered in the form of an addendum after the pre-proposal meeting. No contact in any form or manner is to be made with any employee of the District except through the Executive Director Of Procurement. Violation of this provision shall be considered grounds for disqualification.

REQUEST FOR PROPOSAL DOCUMENTS: A complete set of Request for Proposals documents shall be used in preparing proposals. Neither the Orleans Parish School Board, nor its representatives assume any responsibility for errors or misinterpretations resulting from the use of incomplete sets of Request for Proposal Documents.

OPEN COMPETITION: NOLA-PS encourages free and open competition. Whenever possible, specifications and proposal terms and conditions are designed to accomplish this objective, consistent with the necessity to satisfy the needs of the NOLA-PS and to guarantee an economically sound solution. The signature on this proposal guarantees that the prices quoted have been established without collusion with other firms and without effort to preclude the NOLA-PS from obtaining the best possible competitive value. The firm certifies that neither its officers nor its employees have bribed or attempted to bribe or influence in any improper manner any officer, employee or agent of the NOLA-PS.

PREPARATION EXPENSE: All proposals submitted in response to this RFP must be submitted at the sole expense of the proposing firm, irrespective of the final decision of the NOLA-PS as to contract award.

TITLE VI SOLICITATION NOTICE:

NOLA-PS, in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. §§ 2000d to 2000d-4) and the Regulations, hereby notifies all Proposers that it will affirmatively ensure that any contract entered into pursuant to this advertisement, disadvantaged business enterprises will be afforded full and fair opportunity to submit bids in response to this invitation, and will not be discriminated against on the grounds of race, color, or national origin in consideration for an award.

EVALUATION PROCEDURES:

All proposals will be evaluated by the RFP Evaluation Committee that will conduct an independent, objective evaluation of proposals for Turnkey Development and Operation of Community Solar Systems Services. All members of the Evaluation Committee must execute a disclosure certifying they do not possess a conflict of interest with any of the proposers. Before beginning the evaluation process, the Evaluation Committee must review the RFP, concerning not only the scope of work but also the qualifications and the evaluation criteria. See Evaluation criteria – Section 6.0.

The purpose of the Evaluation Committee is to conduct an independent, objective evaluation of Request for Proposals for Turnkey Development and Operation of Community Solar Systems.

REVIEW AND EVALUATION OF PROPOSALS:

A Finance Department representative shall serve as the Evaluation Committee coordinator and is solely responsible for disseminating all information received during the RFP evaluation process. After completion and tallying of the technical evaluation scores, each Evaluation Committee member shall sign and date his/her individual score sheet.

NOLA-PS will evaluate proposals on a qualitative basis. This includes our review of the firm(s) proposal and related materials for evidence of prior experience, value-added services beyond the scope of work, qualifications of staff to be assigned to the project, cost effectiveness, and the Proposer's completeness and timeliness in its response, etc.

After registering, you will receive a confirmation email containing information about joining the meeting. ALL NOLA Public Schools solicitations/addendums can be found on NOLA-PS website at: www.nolapublicschools.com. Click Community/business resources/solicitations.

ADDENDUM TO REQUEST FOR PROPOSAL: NOLA-PS reserves the right to revise and amend the specifications prior to the date set for the opening. Proposers are requested to clarify any ambiguity, conflict, discrepancy, omission or other error(s) in this RFP in writing and request the modification or clarification desired. NOLA-PS will issue an addendum to evidence any revisions or amendments made to this RFP. As a courtesy, every effort will be made to send an issued addendum to the parties known to have been furnished a complete copy of this RFP. Addenda are made available on the NOLA-PS

website under community/business resources/solicitations. Please acknowledge receipt of addendum on Signature Page. **Failure to acknowledge all Addenda will result in the proposal being rejected.**

All questions must be in writing and electronically submitted to the Executive Director of Procurement at procurement@nolapublicschools.com no later than **4:00 P.M. on Wednesday, March 20, 2024**. No addendum will be issued later than **Tuesday, March 26, 2024 or 72 hours prior to proposal due date**, except an addendum withdrawing the proposal or postponing the opening of the proposal. It is the responsibility of each Proposer, prior to submitting the qualifications response, to determine if addenda were issued and, if so, to acknowledge the addendum on the applicable form.

Times and dates are final unless there is an unexpected “emergency” beyond NOLA-PS’s control.

ORAL PRESENTATIONS via ZOOM: (Optional)
PRESENTATION DATES: April 18 – April 19, 2024

NOLA-PS, at its sole discretion may invite the top two to four (2-4) Proposers to provide oral presentations and justify how they propose to meet the Districts’ objectives with **RFP No. 24-0065**. The evaluation committee has the option to conduct initial reviews of proposals and only host oral presentations of the top 2 to 4 firms in the best interest of the District.

Each firm selected should be prepared to conduct a presentation to the NOLA-PS Evaluation Committee. The presentations must be shown that the firm clearly understands the requirements of the solicitation and possesses the knowledge, skills, and capacity to complete the work. Firms presenting for the oral presentation process will be notified of their allotted presentation time with the District on **Monday, April 15, 2024**. The time frame for the presentations will follow the schedule provided below:

- 10 minutes for vendor set-up and brief Introductions
- 20 minutes for presentations to NOLA-PS Evaluation Committee demonstrating firms’ Qualifications and Expertise with the requirements as it relates to the RFP services
- 15 minutes for question/answer session
- 5 minutes for closing

NOLA-PS is requesting firms respectfully adhere to the assigned time allotted for presentations.

2.0 SCOPE OF WORK/SERVICES

SCOPE OF SERVICES:

The Project Developer shall finance, design, build, own, operate, perform subscriber management, and maintain solar installations at the following two (2) NOLA-PS Properties: G.W. Carver High School (3059 Higgins Blvd.), and Abramson Sci Academy (5552 Read Blvd.). Solar installations are anticipated to be primarily ground-mounted, though room for discussion exists related to use of solar installations as shade structures above existing or future parking lots if needed to meet the 5 Megawatt (MW) minimum requirement. Rooftop solar will not be included in the installations.

The Project Developer shall enter into one or more Lease Agreement(s) with NOLA-PS and pay NOLA-PS rents for using NOLA-PS properties. Additionally, the Lease Agreement will memorialize other programmatic commitments such as education and workforce development for NOLA-PS students and LMI New Orleanians, as well as enrolling NOLA-PS families, neighborhood residents, and other LMI New Orleanians as subscribers for the power produced by these systems.

NOLA-PS shall host the installations for up to 25 years through one or multiple Lease Agreement(s). NOLA-PS will not participate in financing the Projects. NOLA-PS shall assist in providing relevant contact information and lists for NOLA-PS families exclusively for the purpose of enrolling families as subscribers to the Projects, and shall connect the Project Developer with individual charter school operators for the purpose of facilitating education and workforce development programming.

Properties

A. G.W. Carver High School

G.W. Carver High School is located at 3059 Higgins Blvd, New Orleans, LA 70126. The overall site is owned by the Orleans Parish School Board and is over 65 acres in size. Approximately 20 acres at the southern end of the site are in active use by Carver High and are leased to the charter operator, Collegiate Academies. The northern portion of the site is currently slated for development as part of the Ninth Ward Stadium project, a stadium amphitheater that will be used by Carver as well as other NOLA-PS schools. See Figure 1 for the anticipated area (5.8 acres) that is planned to be provided for solar installation.

The selected Project Developer will need to coordinate with the Ninth Ward Stadium design team and G.W. Carver High School personnel to ensure that the proposed location and design of the community solar field has no adverse effects on these uses. The Project Developer may also coordinate with these users to ascertain if additional room for solar installation exists, for example, by installing solar parking canopies in certain areas or activating unused green spaces. NOLA-PS will assist in facilitating this coordination by connecting the Project Developer with staff and contractors of the school and Ninth Ward Stadium team.

G.W. Carver High School serves students in Grades 9-12. The school is operated by the charter management organization (CMO) Collegiate Academies, as is Abramson Sci Academy, the other Property under consideration in this RFP. NOLA-PS expects that this selection of sites under a single charter operator will produce efficiencies in communication and coordination for the Project Developer.

The G.W. Carver site is located near a proposed City of New Orleans solar development project located at the former Agriculture Street Landfill. NOLA-PS has held initial coordination discussions with the City on this effort and will assist the selected developer to coordinate if needed. For more information on this City project, see the [City of New Orleans website](#).

Figure 1: Approximate Property Area Available at Carver Site

B. Abramson Sci Academy

Abramson Sci Academy is located at 5552 Read Blvd, New Orleans, LA 70127. Approximately 9.15 acres of this property are currently available for solar development; see Figure 2 for details on the location for the potential solar installation. The acreage estimate does not include the small “arm” of land to the southeast of the parking lot, which is available but may not be usable for the purposes of this project. This property is located near several important New Orleans East assets, including the New Orleans East Hospital, East New Orleans Regional Library, and Joe W. Brown Memorial Park. Abramson Sci Academy serves students in Grades 9-12 and is operated by the CMO Collegiate Academies.

In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

4.0 SPECIFICATIONS

SCOPE OF WORK:

The Project Developer shall finance, design, build, own, operate, perform subscriber management, and maintain solar installations at the following two (2) NOLA-PS Properties: G.W. Carver High School (3059 Higgins Blvd.) and Abramson Sci Academy (5552 Read Blvd.). Solar installations are anticipated to be primarily ground-mounted, though room for discussion exists related to use of solar installations as shade structures above existing or future parking lots if needed to meet the 5 MW minimum requirement. Rooftop solar will not be included in the installations.

The Project Developer shall enter into one or more Lease Agreement(s) with NOLA-PS and pay NOLA-PS rents for using NOLA-PS properties. Additionally, the Lease Agreement will memorialize other programmatic commitments such as education and workforce development for NOLA-PS students and LMI New Orleanians, as well as enrolling NOLA-PS families, neighborhood residents, and other LMI New Orleanians as subscribers for the power produced by these systems.

NOLA-PS shall host the installations for up to 25 years through one or multiple Lease Agreement(s). NOLA-PS will not participate in financing the Projects. NOLA-PS shall assist in providing relevant contact information and lists for NOLA-PS families exclusively for the purpose of enrolling families as subscribers to the Projects, and shall connect the Project Developer with individual charter school operators for the purpose of facilitating education and workforce development programming.

Properties

A. G.W. Carver High School

G.W. Carver High School is located at 3059 Higgins Blvd, New Orleans, LA 70126. The overall site is owned by the Orleans Parish School Board and is over 65 acres in size. Approximately 20 acres at the southern end of the site are in active use by Carver High and are leased to the charter operator, Collegiate Academies. The northern portion of the site is currently slated for development as part of the Ninth Ward Stadium project, a stadium amphitheater that will be used by Carver as well as other NOLA-PS schools. See Figure 1 for the anticipated area (5.8 acres) that is planned to be provided for solar installation.

The selected Project Developer will need to coordinate with the Ninth Ward Stadium design team and G.W. Carver High School personnel to ensure that the proposed location and design of the community solar field has no adverse effects on these uses. The Project Developer may also coordinate with these users to ascertain if additional room for solar installation exists, for example, by installing solar parking canopies in certain areas or activating unused green spaces. NOLA-PS will assist in facilitating this coordination by connecting the Project Developer with staff and contractors of the school and Ninth Ward Stadium team.

G.W. Carver High School serves students in Grades 9-12. The school is operated by the charter management organization (CMO) Collegiate Academies, as is Abramson Sci Academy, the other Property under consideration in this RFP. NOLA-PS expects that this selection of sites under a single charter operator will produce efficiencies in communication and coordination for the Project Developer.

The G.W. Carver site is located near a proposed City of New Orleans solar development project located at the former Agriculture Street Landfill. NOLA-PS has held initial coordination discussions with the City on this effort and will assist the selected developer to coordinate if needed. For more information on this City project, see the [City of New Orleans website](#).

B. Abramson Sci Academy

Abramson Sci Academy is located at 5552 Read Blvd, New Orleans, LA 70127. Approximately 9.15 acres of this property are currently available for solar development; see Figure 2 for details on the location for the potential solar installation. The acreage estimate does not include the small “arm” of land to the southeast of the parking lot, which is available but may not be usable for the purposes of this project. This property is located near several important New Orleans East assets, including the New Orleans East Hospital, East New Orleans Regional Library, and Joe W. Brown Memorial Park. Abramson Sci Academy serves students in Grades 9-12 and is operated by the CMO Collegiate Academies.

SPECIFICATIONS:

Obligations of the Project Developer

The Project Developer shall be responsible for the following.

Identifying, negotiating, and securing project financing

The Project Developer shall be solely responsible for obtaining project financing necessary to fund all of the Project Developer's obligations with respect to the Projects, including designing, permitting, owning, insuring, commissioning, interconnecting, metering, operating, maintaining, monitoring, and decommissioning, and removing the Projects, and for providing security for the Projects at all times. The Project Developer shall be solely responsible for paying any taxes that may arise from the Projects.

NOLA-PS will not cover any costs, capital or otherwise, associated with the Projects. NOLA-PS shall not provide any financial security (i.e., letter of credit, guarantee, etc.) or encumbrance to secure its obligations under a Lease Agreement.

Finance New Orleans (FNO) projects the potential receipt of local Green Bank funding for New Orleans, and is a potential partner for the provision of low-interest bond financing if needed for the project. However, the timeline for the receipt of Green Bank funding is uncertain, and reliance on this funding may delay project implementation. Should the Project Developer's proposal include Green Bank funding as a key component of the project financing, the Project Developer should include a discussion of the potential risks and benefits of using this funding source, as well as potential implications for the project timeline.

Full system ownership for the entire life of the system, including decommissioning

The Project Developer shall own, operate, and maintain all systems installed under this Solicitation. Any equipment owned by the Proposer may be used as collateral to secure financing, obtain tax credits, or otherwise benefit the project financials.

The Project Developer shall be responsible for decommissioning the Projects at the end of the Lease Agreement(s) terms or earlier expiration thereof, including removal of all systems, wiring, meters, and return the Project Site on which the Project was installed to its original condition. The Project Developer will be required to provide at NOLA-PS's discretion, security in the form of an escrow fund, irrevocable letter of credit, surety bond, or third-party guaranty sufficient to cover the cost of the removal of the Project(s) and restoration of the Project Site(s) at the expiration or earlier termination of the Lease Agreement.

Assignments of the leasehold interest by the selected Project Developer to another entity shall be on terms and conditions as detailed in the template Lease Agreement.

System design, site preparation, construction and commissioning according to all local, State, Federal, and utility requirements and minimum specifications

The Project Developer shall design the electrical, physical, and mechanical systems. NOLA-PS staff will review the systems design (See section 2.4.3) to make sure the solar installations will not impact normal school operations or other operations on the Properties as described in Section 2.2. NOLA-PS will not provide any technical input other than on matters which would directly impact operations, safety, or security at the Properties.

The Project Developer shall be responsible for the permitting and interconnection approval processes, including all fees and/or costs associated with any required network upgrades. Power generated on NOLA-PS's properties by community solar systems will be metered separately from existing NOLA-PS electrical meters. The Project Developer shall be responsible for site preparation, minimizing disruption of operations at the Properties, and taking into account other construction work that might be underway at the same time. The Project Developer shall be responsible for systems construction and commissioning.

System and component safety and security, including preventing risks to OPSB Properties, school staff and students, both during construction and over the entire term of the Lease Agreement

The Project Developer shall be responsible for ensuring safety and security at all stages of the project development, construction and operation. The Project Developer shall be responsible for preventing risks to NOLA-PS and CMO staff and students. The Project Developer shall develop safety procedures that will be reviewed and approved by NOLA-PS in accordance with the Lease Agreement(s).

Lease Payments to OPSB

The Project Developer shall be responsible for making lease payments to OPSB in return for their use of OPSB's land and property, according to the executed Lease Agreements.

Identifying subscribers and/or off-takers for the power produced by the solar systems; prioritizing schools, families and LMI subscribers

The Project Developer shall identify subscribers for the power generated by the systems. The Project Developer shall recruit families of NOLA-PS students, residents of surrounding neighborhoods, and other LMI households in New Orleans. The Project Developer shall also advise NOLA-PS on the opportunities for NOLA-PS schools to subscribe to the project and shall ensure schools have opportunities to benefit from low-cost power wherever feasible. The Project Developer should carefully review the Low-Income Community Solar regulations from the City of New Orleans and ensure that a subscriber management plan meets or exceeds the requirements for a Low-Income Community Solar Project. Proposers are strongly encouraged to attempt a 100 percent LMI subscription rate for residential subscribers, and must exceed a 50 percent LMI subscription rate.

To help the Developer enroll NOLA-PS families in community shared solar systems, NOLA-PS shall connect the Project Developer with schools that are willing to promote the community solar subscription opportunity and share marketing materials with students and families. NOLA-PS cannot provide any names, addresses, or other information concerning individual students or families. NOLA-PS may, at its sole discretion, include information in NOLA-PS mailings to students and families to alert them of the opportunity to participate in community solar.

Educational programming for NOLA-PS students

The Project Developer shall commit to partnering with schools and/or local workforce development entities to develop an educational program for NOLA-PS students. NOLA-PS's solar program provides a unique opportunity to provide students insight into long-term career pathways in a burgeoning industry.

To fulfill this commitment, the Project Developer and/or its contractors or subcontractors are expected to work with Collegiate Academies to devise an education strategy that is based in best practices and that can engage the school population at Abramson and Carver High Schools.

Workforce development for adults

The Project Developer shall use reasonable efforts to partner with local entities that are involved in workforce development for New Orleanians in order to increase local experience in the solar installation and maintenance industries. This effort may include teaming with a local workforce development partner such as a tradespersons' union, non-profit, or community college.

Disadvantaged Business Enterprise (“DBE”) commitment

OPSB encourages participation from Disadvantaged Business Enterprises (DBEs). The team will be evaluated in this area on the extent to which Respondents identify and commit to DBE certified firms, whether as a prime, joint venture teaming arrangement, or through the use of Sub-consultants with a target goal of 35 percent (35%) of the fee to be earned by DBE firms.

Wage Requirements

The Project Developer shall use reasonable efforts to ensure that all construction laborers and tradespeople hired by the Project Developer, Project Developer's contractors and subcontractors are paid at Davis-Bacon prevailing wages applicable to the New Orleans metropolitan area.

NOLA-PS and OPSB Responsibilities

Host and Lessor for Solar Systems

The Orleans Parish School Board (OPSB) shall serve as the host and lessor of land for solar systems. OPSB shall sign a Lease Agreement for each Property with solar installations that will reference the obligations of each party.

Provide Site Access

NOLA-PS and OPSB shall provide access to the Properties. Permission to enter upon the Properties will be granted in the form of the Lease Agreement(s) duly executed by the Project Developer and OPSB. Prior to execution of the Lease Agreement, OPSB and NOLA-PS can provide supervised site access to Project Developers to conduct their due diligence. Said access will be pursuant to a Site Access License Agreement that NOLA-PS will provide to selected Project Developers.

Review plans, design, and procedures to ensure continuity of operations

NOLA-PS staff, including operations staff and authorized external consultants, shall review and approve in its sole discretion:

- Operations, maintenance and safety procedures for the long-term operation of the solar systems, with the exclusive intent to determine any adverse impact on NOLA-PS and Ninth Ward Stadium operations and identify coordination needs.
- The Project Developer remains fully responsible for all aspects of designs and plans and for compliance with all Federal, State and local laws, rules and requirements.
- NOLA-PS reserves the right to verify that designs, procedures and actions taken by the Project Developer's operations and maintenance staff are consistent with the approved plans and designs.

Project commissioning review

During and upon completion of construction, NOLA-PS shall attend commissioning inspections with the Project Developer, at NOLA-PS's discretion.

Construction safety inspections

NOLA-PS may perform periodic inspections during construction to ensure adherence to safety and security protocols and requirements. NOLA-PS reserves the right to stop work if the site safety inspector deems there is an imminent threat to life and/or safety of NOLA-PS and/or CMO staff and students.

Emergency Management during Operations

NOLA-PS reserves the right to intervene and take action on the systems if there is an imminent threat to the safety of NOLA-PS and/or CMO staff and students or the general public.

NOLA-PS shall facilitate meetings with CMOs responsible for schools at the Properties as well as other CMOs and community-based organizations (CBOs) that may be interested in promoting the community solar subscription opportunity to their students and families. The intent is that these meetings will support and result in:

- Recruiting schools and CMOs to participate in education and workforce development opportunities
- Resident and family information and buy-in for solar construction on site

LMI outreach and subscription to the community solar projects on the NOLA-PS facilities provided within this Solicitation.

6.0 EVALUATION CRITERIA /PROCESS

EVALUATION OF PROPOSALS

The evaluation of the proposal will be performed by a committee consisting of designees of NOLA-PS. It is critical to the ultimate award of this Request for Proposal the proposal be complete and accurate. While cost is an important factor, it should be understood that the NOLA-PS is under no obligation to accept the lowest proposal. In evaluating qualified proposals, the following considerations will be taken into account for award recommendations (if applicable).

- The Proposer MUST provide at least 25% savings to subscribers in order to be considered responsive.
- The Proposer MUST reach a minimum number of 5 MW of solar capacity in the Proposal and/or provide strong justification, including a spatial plan, to indicate why 5 MW is an infeasible goal. If 5 MW is judged to be infeasible with the existing footprints provided, NOLA-PS strongly encourages proposers to propose alternatives including adding shaded solar structures over parking lots; expanding ground-level solar footprints on the Properties; or indicating a total additional acreage need for NOLA-PS land in order to achieve the 5 MW goal.
- At least one member of the Proposer’s team (may be a contractor or subcontractor rather than the lead Proposer) must demonstrate at least three (3) years of prior experience providing solar services. 7.1 PROPOSAL SUBMISSION REQUIREMENTS

All narrative sections in the Proposal are NOT TO EXCEED the number of pages indicated in each section with 1” margins and 12pt text. The final Proposal (including all narrative sections and requested attachments) must be submitted electronically in PDF format to Paul A. Lucius – Executive Director of Procurement: procurement@nolapublicschools.com by the Deadline of April 9, 2024. All Proposals shall become the property of NOLA-PS.

NOLA-PS may choose, in its sole discretion, to extend the Deadline for any or all selected teams. NOLA-PS may additionally choose to waive what it considers to be non-material non-conformance by a Proposer with these Requirements.

7.2 Proposal Content Requirements

Proposals submitted for consideration should follow the format and order of presentation described below:

A. **Tab 1 – Cover Letter** – *Letter of Interest/Executive Summary*

- a. Must be on Firm’s Letterhead
- b. Signed by authorized company official/agent of the firm who is committing to a potential contract with NOLA-PS
- c. Include primary contact person

B. **Tab 2 – Team Information and Minimum Qualifications**

The Team Information and Qualifications Narrative (**maximum 3 page narrative**) must:

- Demonstrate the Proposer’s ability to finance, design, install, and operate the Projects successfully and in a timely manner.
- Describe team members and use previous experience in similar projects to address each specific area of focus.
- Include an overview of the project structure and a description for each organization, including roles and expected major tasks during project development, construction and operations.
- Provide details on total expected DBE participation in the project, including roles and anticipated percentages of the project predevelopment, construction, and maintenance budgets. NOLA-PS has set a goal of 35% DBE participation in this project.

In addition to the maximum 3-page narrative, the Proposer must also provide the following items within this section. These items do not count in the maximum number of pages for this section.

- An organization chart identifying the names, titles, and reporting relationships of key personnel, organizations, and subcontractors who will be assigned to develop, own, and operate the Projects over the life of the system. Include certified DBE status of firms in the organization chart.
- Résumés for each person named in the organization chart, including training, education and prior experience.
- Proof of the Proposer’s legal existence as a business entity; if the Proposer was not organized under the laws of the State of Louisiana, proof that the Proposer is qualified to do business in Louisiana.
- Certifications for DBE firms included in the project organizational chart.
- An accountant-prepared financial statement dated within one year of submission of the RFP response, OR the Contractor’s Financial Qualification Statement in Attachment A.

C. Tab 3 – References (Form Attached)

- Proposers should also be ready to provide references for key personnel

D. Tab 4 – Project Technical Approach, Deployment, and Construction Plan

The Technical Approach Narrative can be a **maximum of 6 pages**. This section must include the following elements:

System Characteristics, Deployment, and Timeline

- Include estimated total acreage, site locations, and MW generated on each of the two properties. NOLA-PS understands that uncertainties particularly regarding the Carver site and Ninth Ward stadium mean that submitted designs will not be final plans. We ask that the team provide its best possible plan for how land at the Properties can be deployed to reach NOLA-PS’s 5 MW generation goal.
- Include a deployment and construction plan that indicates the key project phases and when construction is likely to be started and completed (including estimated month / year of start and completion).
- Document how the Proposer’s plan will maximize system capacity and production.
- Identify specific standards that will ensure the highest level of safety, reliability, and quality for the proposed systems.

Risk Management

- Address any technical, scheduling, or construction coordination concerns and requirements that could impact the Proposer’s ability to deliver the projects.
- Highlight any potential risks and contingencies that may arise during the permitting and construction period and would impact the milestones in the timeline. Document Proposer’s hands-on experience addressing such risks and contingencies and delivering projects in a timely manner.

Operations and Maintenance

- Describe the Proposer’s operations and maintenance roles and responsibilities.
- Describe proposed procedures for identifying and remedying any system issues that may impact production and/or operations at the Properties.
- Describe the Proposer’s approach to operational management and security.
- Describe how the Proposer will ensure that systems are safely and efficiently decommissioned at the end of the lease period.

E. Tab 5 – Project Financing

The Financing Approach Narrative (**maximum 3 pages**) must include answers to the following questions:

- Who are the envisioned partners for financing the Projects?
- What is the Proposer’s experience with working with these financing partners?
- What is the envisioned financing structure for the Projects?
- What are the factors that could influence the Proposer’s ability to secure the Projects’ financing?
- What total level of estimated lease payments can the Projects provide to NOLA-PS based on current financing assumptions?
- What form of security will Proposer provide to cover the Projects’ removal costs?

NOLA-PS understands that Proposers may not be able to secure a final financing partner prior to Proposal Award; however, NOLA-PS strongly encourages the Project Developer to identify financing prior to Lease signature.

F. Tab 6 – Education and Workforce Development

The Education and Workforce Development Narrative (**maximum 2 pages**) must describe the Proposer’s approach to incorporating education and workforce development opportunities for NOLA-PS high school students into the Projects. This must include:

- Identification of any partners that the Proposer plans to engage and the status of these partnerships (confirmed, in progress, not yet started).
- A description of any specific curricula that the Proposer and/or its partners and subcontractors propose to utilize.
- Descriptions of any past experience the Proposer has in education and workforce development efforts within solar projects.
- Enumeration of the types of support the Proposer requires from NOLA-PS and local schools to develop and implement an education and workforce development plan.

G. Tab 7 – Subscriber Management

Proposer must provide a Subscriber Management Plan (**maximum 3 pages**) that explains its enrollment approach, goals, and pricing for LMI residents of New Orleans and NOLA-PS schools. The Plan must:

- Demonstrate how the Proposer’s planned outreach is adapted to LMI customers and NOLA-PS families and schools specifically.
- Enumerate the types of support that the Proposer requires from NOLA-PS to reach LMI customers and NOLA-PS families and schools.
- Describe how the program will help LMI customers reduce their electricity bills, including the percentage discount (at least 25%) that LMI subscribers will be offered and how that translates into typical monthly savings.
- Set a quantitative goal for LMI customer enrollment in terms of percentage of the project and total families and describe the parameters that determine this quantitative goal.

The Proposer should note any additional information not specifically requested in the sections above that will be helpful for NOLA-PS to evaluate their Proposal and ability to execute the Projects. This section may include articles, pre-printed brochures, and other material not specifically prepared for the Proposer’s Proposal in response to this Solicitation, but that the Proposer believes will help NOLA-PS to evaluate the Proposer’s qualifications and Proposal.

H. Tab 8 – Proposal Cost (Form Attached)

OPSB DBE POLICY | PROVISIONS AND PROCEDURES

FOR ALL OPSB SOLICITATIONS:

DISADVANTAGED BUSINESS ENTERPRISE (DBE) PROGRAM

I. Orleans Parish School Board Policy -Disadvantaged Business Enterprise

It shall be the policy of the Orleans Parish School Board (OPSB) to ensure every opportunity is made available to include disadvantaged business concerns in its letting of contracts and purchases, by providing bidders for each contract or purchase being bid. At no time shall any School Board department, school or representative exclude any responsive bidder from participation in, deny any person the benefit of, or otherwise discriminate against anyone in connection with the award and performance of any contract or purchase on the basis of race, color, sex, or national origin.

The OPSB shall provide or participate in programs and offer services to assist disadvantaged business concerns in the development and growth of their business. Each department and school shall take measures to evaluate and ensure optimum contracting and purchasing opportunities shall be made available.

The Superintendent shall be responsible for maintaining appropriate administrative regulations and procedures assigned to ensure participation of certified economically disadvantaged businesses in purchasing, procurement, and contracting opportunities with the School Board.

II. Provisions

OPSB | Office of Business Partnerships would like to offer firms exciting business opportunities in Professional Services, Public Works, and Materials and Goods through its Disadvantaged Business Enterprise (DBE) Program. The DBE program's policy intent is to assist certified disadvantaged businesses to attain parity by providing equal access to procurement contracts and purchasing opportunities in the OPSB marketplace. Moreover, OPSB shall support local business, community and economic development, in part, by providing business opportunities to historically underutilized businesses.

III. Administrative Procedures

A. Certification

The OPSB does not conduct an independent DBE Certification process. However, OPSB does grant "Reciprocity" to Certified DBE Firms, which possess a current DBE Certification letter. To be qualified as a DBE for OPSB purchasing agreements and/or procurement contracts, a firm must be certified as a DBE by the Louisiana Unified Certification Program (LAUCP) or any of the following five (5) agencies conducting DBE certification within the City of New Orleans. These five agencies are: The City of New Orleans, Sewage and Water Board of New Orleans, New Orleans Aviation Board (NOAB), New Orleans Regional Transit Authority (RTA) and Harrah's Casino DBE Program. The lists are not an endorsement of the quality of performance of the firm listed therein; but is simply an acknowledgment of the firm's eligibility as a DBE, once a DBE Certification letter is submitted for verification.

B. DBE Compliance

1. The Orleans Parish School Board's Disadvantaged Business Enterprise (DBE) Program shall apply to this solicitation and contract. It is the policy of the OPSB to practice nondiscrimination based on social and economic disadvantage, race, color, disability, national origin, gender identity, sex, age, disability, marital status, sexual orientation, religion or veteran status. All firms qualifying under this solicitation are encouraged to submit proposals/bids. Award of this contract shall be conditioned upon the *Professional Consultant / Most Responsible and Responsive Bidder* satisfying the OPSB DBE Program goal assigned to the particular contract. The Proposer/ Offeror/Bidder shall agree to use its best efforts, as determined by the DBE Committee in accordance with the factors set forth in the DBE Program to meet the contract goal for DBE participation in the performance of this contract. Thus, a Contractor's desire to self-perform scope of work(s) does not preclude DBE participation or Good Faith Efforts towards the same.

C. DBE Participation

1. DBE Participation for Professional Services: The *Professional Consultant*, shall submit the following information on the DBE Responsiveness Forms 1 & 2, as attachments with proposals for professional services before the proposal submission deadline reflecting:
 - a. The names and addresses of all DBE firms that will participate in the contract;
 - b. The dollar amount commitment of the participation of each DBE firm participating in the contract;
 - c. Written confirmation from the named DBE(s), verifying their participation in the contract, as provided in the commitments made under (a) and (b) above;
 - d. Submit copy of DBE Certification letter of participating firm(s);
 - e. If the DBE target goal is not met, written evidence of Good Faith Efforts are verified via OPSB DBE Compliance Officer.
2. DBE Participation for Public Works and Materials & Supplies: The *Most Responsible and Responsive Bidder* shall submit the following information on the DBE Responsiveness Forms 1 & 2, via post-bid submittals' attachments with bids within ten (10) days after the bid opening regarding public works reflecting:
 - a. The names and addresses of all DBE firms that will participate in the contract;
 - b. The dollar amount commitment of the participation of each DBE firm participating in the contract;
 - c. Written confirmation from the named DBE(s), verifying their participation in the contract, as provided in the commitments made under (a) and (b) above;
 - d. Submit copy of DBE Certification letter of participating firm(s);

- e. If the DBE target goal is not met, written evidence of Good Faith Efforts are verified via OPSB DBE Compliance Officer.
3. For all OPSB solicitations that are awarded based on evaluation criteria the DBE documentation must be submitted with the proposal by the proposal submission deadline.
4. It is the policy of the board that all contracts correctly show the agreed upon DBE percentage (goal) for that project prior to the signing of the contract. Any variation must be subject to agreement of the contracting entity and the board.
5. Upon receipt of the above-referenced materials, the DBE Representative shall then render opinion to the Board as to whether the *Most Responsible and Responsive Bidder* has satisfied the DBE contract goal, or if not, has demonstrated their satisfactory good faith efforts. If it is determined by the Board that the *Most Responsible and Responsive Bidder* has not satisfied the DBE contract goal, or shown satisfactory good faith effort to do so, the bid may be rejected as non-responsive to the DBE contract goal, and consideration may then be given to the next *Most Responsible and Responsive Bidder*. The procedure set forth in this section shall be repeated with each successive qualified proposer/apparent lowest bidder, until a responsible and responsive vendor satisfying the DBE contract goal, or showing satisfactory good faith effort is determined.
6. It is the Policy of the Board to ensure that DBE subcontractors with OPSB contracts receive prompt payment for services rendered. The DBE Officer shall establish written procedures to ensure that DBE subcontractors are timely paid by General Contractors. Such written procedures shall set forth the time period within which payments to DBE subcontractors shall be made by General Contractors.

D. Outreach

1. In recruiting potential Economically Disadvantaged Businesses, part of our outreach efforts consist of participating in the following:
 - a. Small Business – Industry Day Events
 - b. Business to Business Trade Shows
 - c. Procurement and Supply Chain Conferences
 - d. Supplier Diversity Conferences and Certification Seminars
2. Engaging all Contractors, Material Providers, Professional Service Consultants/Vendors and Community Organizations with Certified DBE Membership
3. Attend all programs sponsored by government, non-profit and private entities where opportunities to network are maximized including but not limited to:
 - a. Conducting monthly vendor assistance meetings for potential clients.

- b. Conducting one-on-one vendor assistance meetings for potential clients.

E. Good Faith Efforts

1. A Bidder's compliance with the requirement to make Good Faith Efforts to locate and engage the services of DBE businesses in connection with the Project shall be a matter of Bidder responsiveness. The Bidder can demonstrate that it has complied with the requirement by certifying to the DBE Director or his/her designee in writing, that as of the date of the bid submittal:
 - a. the Bidder has selected and engaged the services of DBEs, in which case the certification shall include:
 - i. the names and addresses of those enterprises engaged by the Bidder
 - ii. the value of the subcontract and
 - iii. a description of the work on the Project to be performed by such firm(s) and/or individuals, or
 - b. if despite the Bidder's Good Faith Efforts, the Bidder was not able to select and engage the services of such enterprises, in which case the Bidder shall include in its written certification the following:
 - c. affirmation that, prior to determining that it was unable to locate DBEs, the bidder consulted business registries including those identified by the School District;
 - d. affirmation that the bidder attended any pre-bid meeting scheduled to inform DBEs of subcontracting opportunities;
 - e. a copy of the written notifications sent to DBEs soliciting their interest in being a subcontractor or supplier on the Project;
 - f. the names, addresses, and telephone numbers of DBEs contacted, the date of such contact and the date set for receipt of bids from those businesses;
 - g. a copy of the information or a description of the information provided to DBEs regarding the plans and specifications for the work proposed to be subcontracted and how that information could be accessed;
 - h. a statement from the Bidder explaining why any DBEs contacted by bidder were not engaged
2. Upon the Bidders application for waiver of the DBE goals, based on the above circumstances, the DBE Director shall determine whether or not the bidder satisfied the good faith effort and shall make the appropriate recommendation.
3. Upon written request of the DBE Director, the bidder will attend a meeting of the Orleans Parish School Board to discuss the specific measures the Bidder has utilized in undertaking the Bidder's Good Faith Efforts.

F. Calculations

1. DBE participation will be counted toward meeting the goals as follows:
 - a. The total dollar value of a direct contract or subcontract or indirect subcontract

awarded to a certified DBE will be counted toward the applicable goal.

- b. In the case of a joint venture, the portion of the total dollar value of the contract equal to the percentage of the ownership and control of the DBE in the joint venture will be counted toward the applicable goal.
- c. Only DBEs that perform a commercially useful function in the work of a contract or subcontract or indirect subcontract will be counted toward the DBE goals. A DBE is considered to perform a commercially useful function when it is responsible for execution of a distinct element of work of a contract or subcontract and carries out its responsibilities by performing, managing, and supervising the work involved. If a DBE contractor subcontracts a significantly greater portion of the work of the contract than would be expected on the basis of normal industry practices, the DBE is presumed not to be performing a commercially useful function. The DBE may present evidence to rebut this presumption.
- d. The total dollar value of materials and supplies obtained from DBE suppliers and manufacturers will be counted toward DBE goals if the DBE assumes the actual and contractual responsibility for the provision of the materials and supplies. However, all invoices/receipts must be submitted via DBE reports.
- e. OPSB through the DBE Director will review the contractor's DBE involvement efforts throughout contract performance. Such review will include but will not be limited to, the contractor's and the DBE's monthly and/or quarterly statements of income from the District which shall document the portion of said income paid to DBE. The Contractor agrees to supply copies of any documentation the District requires in order to complete such a review.

G. Procurement Management

1. As a result of our procurement management process, several activities are conducted on a monthly basis:
 - a. Reviewing other DBE agency's certified listings, matching their capabilities to upcoming contracts and encouraging these DBE businesses to seek recertification to update their certification status in order to be eligible for the Orleans Parish School Board DBE participation.
 - b. Advise DBEs or certified vendors about bidding opportunities by submittal of written correspondence to these businesses.
 - c. Providing program information on the Orleans Parish School Board's website and other compliance enforcement forms for the vendors.
 - d. Attend and participate in the Staff Contract Review Committee meetings.
 - e. Attend and participate in the Construction Review Committee meetings.

H. Staff Contract Review Committee (services)

1. The purpose of the Staff Contract Review Committee (SCRC) is to review all contracts involving goods/services and professional services and make recommendations on a suitable percentage and feasible areas of DBE participation.
2. The SCRC consists of the DBE Director (who facilitates the meeting), and

designated OPSB Representatives.

3. At the Staff Contract Review Committee meeting the operations department head or representative and/or consultant makes a presentation on each contract brought before the SCRC being considered for public bid. Details provided include the project cost, subcontract areas, percentage of associated cost of each subcontract area recommended for DBE participation and the recommended goal.

I. DBE Committee

1. The DBE Committee is responsible for setting the DBE participation goal for each project. The specific goal will be set on a project by project basis. Upon receipt of all information relative to and closing of the bid process the DBE Committee consisting of the DBE Executive Director, the Procurement Director and the Head of the Department seeking the Procurement, and in the case of Capital Projects the Executive Director of Facilities/Capital Projects/Operations shall then make a recommendation to the Superintendent as to whether the lowest bidder/offeror has agreed to satisfy the DBE contract goal, or if not has demonstrated satisfactory good faith efforts to satisfy the DBE contract goal. In determining the percentage of participation by certified DBEs, the DBE Committee shall consider the following:
 - a. The type or nature of the work required under the contract
 - b. The estimated dollar amount of the contract
 - c. The availability of subcontractors for the particular project
 - d. Whether the items of work have been broken down to the smallest reasonable components to facilitate DBE participation target goal up to 35% (Thirty Five Percent) pursuant to the Board's policy.

II. Involvement in Bid Process

The DBE Program is responsible for the following bid process:

1. Consult with Program Management (Capital Projects and/or Facilities), Division Chief, or Departmental Representative on each solicitation to ensure that every item of work has been broken down to the smallest reasonable components to facilitate DBE participation.
2. Attend pre-bid/pre-proposal conferences and offer instruction(s), and clarification on DBE bid specifications procurement policy and procedures for sub-contracting.
3. Answer questions posed by prime contractors at pre-bid conferences relative to DBE issues.
4. Provide written responses to detailed questions posed by prime contractors on DBE issues.
5. Consult with Legal Department before releasing responses, as they may have legal considerations.
6. Review bid specifications for consistency with goals established by Staff Contract Review Committee.
7. Review participation summary sheets to determine if the percentage and DBE dollar amount of subcontract work reported is consistent with established goals.
8. Review DBE vendor listing to determine if DBE firm listed on participation

summary sheet is certified to perform required work.

9. Review affidavit(s) and supporting documents for consistency in instances when DBE goals are not met, and "good faith effort" is submitted.
10. Verify DBEs submitted responses which indicate that they were not interested in pursuing work with prime contractors.
11. Review quality of good faith effort, analyze and make an assessment on same (i.e., whether the prime contractor attended pre-bid meetings, advertised in a general circulation and trade association publications concerning DBE opportunities and allowed them reasonable time to respond, provided written response to a reasonable number of DBE firms and allowed them to participate effectively, followed up initial solicitation of interest by contacting DBEs to determine for sure if they were interested in bidding specific portions of the work was selected to be performed by DBEs to increase likelihood of meeting DBE goals, provided interested DBEs with adequate information about the plans, specifications and requirements of the contract, negotiated in "Good Faith" with interested DBEs and did not reject them as unqualified without sound reasons based on a thorough investigation of their capabilities, stated in writing reason for rejecting DBEs as unqualified, used the services of available community organizations, small and/or disadvantaged business groups, local state and federal small or disadvantaged business assistance offices, and other organizations that provide assistance in the recruitment and placement of DBE firms, and made sufficient efforts to negotiate with DBEs for specific subcontractor bids).
12. Make presentations to appropriate committees and full Board on bid disputes and other DBE participation concerns.
13. Provide signed affidavits to Legal Department in instances where litigation is required in bid disputes.
14. Participate as witnesses in depositions and court cases involving bid disputes.

K. Regulatory Compliance | Monitoring

After contracts are awarded and work has begun the DBE Office through the Executive Director monitors actual utilization of DBEs. This process is carried out by utilizing the following:

1. Review Board Reports for approved names of prime contractors, DBE Subcontractors percentage of participation and areas of work to be performed.
2. Advise prime contractors in writing through the appropriate forms provided, that the percentage and dollar amount of work to be performed on each contract may not be changed, and any changes in DBE subcontractor will require prior DBE Office approval, and monthly report forms on the status of contract expenditures will be submitted.
3. Advise DBE Subcontractors in writing as to which prime contractor will be utilizing that firm, the dollar amount of participation, percentage of participation and notification that any changes in acceptances of the subcontract should be reported immediately to the DBE office.
4. Advise prime contractors of the need to complete monthly compliance report two (2) weeks before due date.
5. Attend Owner-Architect-Contractor (OAC) progress meetings.

6. Review monthly compliance reports for instances of non-compliance.
7. Conduct site visit to job sites (i.e. conduct visual inspection of labels on trucks and equipment, determine how many workers are present, determine nature of work being performed).
8. Interview Internal and/or External Stakeholders (i.e., clarify what work is being performed, inquire how often Prime Contractor visits job site, inquire to determine if there are any problems which need to be addressed).
9. Make follow-up phone calls to prime contractors to determine why participation is not in compliance.
10. Schedule meetings with both Prime Contractors and DBE Subcontractors in instances of non-compliance or where problems are evident.
11. Send follow up correspondence detailing non-compliance and penalties for same.
12. Take required action in instances of fronting and non-compliance.

DISADVANTAGED BUSINESS ENTERPRISE (DBE) REPORTING OVERVIEW

I. Responsiveness Reports:

- A. Pertaining to Competitive Sealed Bids/Proposals/Invitations to Bid, the Lowest Apparent Bidder shall submit this form to the OPSB Procurement Office within 10 days after the bid opening date. Failure to properly complete this form may constitute the Bidder as being non-responsive and sufficient cause for rejection.

- II. Pre-Construction Reports will be used to set a baseline of anticipated DBE participation and document Good Faith Efforts used to reach established goal. The Prime Contractor must submit the DBE Pre-Construction Reports for review prior to the Pre-Construction Conference. All Subcontractors, Consultants and Material Providers with agreements or contracts over \$50,000, must submit Pre-Construction Reports no later than ten (10) days prior to mobilizing on respective contracts. Prime or Subcontractor's desire to self-perform scope of work(s) does not preclude DBE participation, or Good Faith Efforts towards the same.

A. **Contracting Schedule – DBE Participation Commitment**

This report will indicate anticipated DBE participation as percentage of total bid/contract and must be substantiated by **Monthly Compliance Reports**. However, *anticipated* DBE participation will not suffice for DBE compliance. *Actual* participation (i.e., payments made), coupled with Good Faith Efforts, determines DBE compliance.

B. **Good Faith Efforts**

This report will allow Contractors and Subcontractors to demonstrate the good faith efforts used to reach DBE participation goal prior to mobilization. It will also allow them to specify which DBEs were contacted, methods of communication, and outcome. Moreover, this report will provide information needed to verify efforts with DBEs listed on report.

C. **Anticipated DBE Mobilization & Completion Dates**

Prime Contractor must provide a mobilization strategy of anticipated DBE participation for this project. Plan shall incorporate actions to be taken by the Bidder's/Proposer's proposed Subcontractors/Consultants/Suppliers, and shall correlate with project schedule submitted to the Owner/Owner's Representative. Bidders must submit form within 10 days before mobilization. Proposers must submit form within 10 days after Letter to Proceed. Provide attachments if necessary.

D. **Pre-Construction | Pre-Professional Service Cover Letter**

If DBE participation goal is not met at the Pre-Construction Phase, both the Prime Contractor and its Partners (identified by DBE Officer), must also submit a Pre-Construction Report Cover Letter, on company letterhead, including any relevant information explaining the circumstances surrounding the failure to meet DBE participation goal at the Pre-Construction Phase. Cover letter must also include specific information regarding Contractor and Subcontractor plan of action to continue good faith efforts in pursuit of DBE Participation Goal, until contract buy-out is 100% complete.

III. Monthly Contractor Compliance Certification will be used to certify Contractor's compliance with all Disadvantaged Business Enterprise, Equal Employment Opportunity, and Affirmative Action Provisions. It will also certify that all information contained in Monthly Compliance Reports (DBE Reports I-IV) is true and correct. Rather than having each DBE Report notarized separately, each notarized Contractor's Compliance Certification will be sufficient for the Monthly Compliance Report for Contractor and respective Subcontractors.

IV. Monthly DBE Compliance Reports will be used to track the Prime Contractor, Subcontractor(s), Consultants, or Material Provider's actual DBE participation, payments to DBEs, on-going good faith efforts to engage DBEs, and EEO/Affirmative Action compliance. Subcontractors, Consultants and Material Providers (with agreements/contracts over \$50,000), must submit Monthly DBE Compliance Reports to Prime Contractor by 7th day following the end of the previous month. Prime Contractor must submit the combined report to Owner and Owner's Program Manager with monthly pay application/invoice, or by the 14th day following the end of the previous month. Prime or Subcontractor's desire to self-perform scope of work(s) does not preclude DBE participation or Good Faith Efforts towards the same. Failure to comply with all applicable requirements, DBE reports, or late submittal, shall constitute the Bidder/Proposer as being Non-Responsive, and sufficient cause for Non-Compliance.

A. DBE Report I: Contracting Compliance

This report will show actual DBE participation and payments for both the reporting month and the contract to date. It will also collect information pertaining to individual vendors including subcontractor contact information, DBE status, scope(s) of work, contract amount, contract start date, and scheduled completion date. Contracting Compliance Reports will be compared to Contracting Schedules to determine whether or not *anticipated* DBE participation commitment is realized. *Anticipated* DBE participation will not suffice for compliance goals. *Actual* DBE participation must be confirmed. Contractor and identified partners must also specify the percentage of contract/subcontract buy-out complete as of last day of report month (e.g., 30%, 50%, 75%, 90%, etc.).

B. DBE Report II: Good Faith Efforts (GFE)

This report will allow Contractors to indicate the Good Faith Efforts used to reach DBE participation goal during report month (i.e., if contract is *not* completely bought out, good faith efforts should continue throughout the project thru substantial completion—see Pre-Construction Cover Letter). It will also allow Contractors to specify which DBEs were contacted, methods of communication, and outcome.

Good Faith Efforts Reports will be required for all Contractors, Subcontractors, Consultants and Material Providers throughout the buy-out period for respective contracts. Once contracts are bought out, shortened (i.e., Part C only completed), meticulous Good Faith Efforts Reports will satisfy monthly GFE reporting requirements. However, if any DBE Vendor is released prematurely, Good Faith Efforts must resume to identify a DBE replacement to re-bid remaining subcontract. Contractor must also adhere to A101 Contract, Article 5.2 and request a *Subcontractor Release Notification Form*, from DBE Director, for each DBE Subcontractor that is released prematurely.

C. DBE Report III: Affirmative Action Steps/Equal Employment Opportunity Efforts

This report will allow Contractors to indicate affirmative actions taken and efforts made toward equal employment opportunity.

D. DBE Report IV: Minority/Female Participation

This report will collect the payroll and demographic information needed to determine minority and female participation in each Report Month. It will also correlate with certified payrolls for Pay Applications from preceding month as a means of verifying veracity.
