

ST. TAMMANY PARISH

MICHAEL B. COOPER
PARISH PRESIDENT

April 3, 2024

Please find the following addendum to the below-mentioned RFP.

Addendum No.: 1

RFP #: 24-3-3

Project Name: Pump and Motor Repair

RFP Due Date: Tuesday, April 9, 2024

QUESTIONS & ANSWERS:

Question 1. can or will contract be rewarded- separated? A few sections on the following bid concerns me without knowing manufacturer information. Example Group G-H. pump seals can vastly vary in cost depending on manufacturer.

Answer 1. No, as stated in Bid Document, paragraph 5.22; the Parish intends to award to a single Proposer.

Question 2. We also see direct replacements of some smaller sized motors to be more effective to our clients vs rebuilding. Of motors. Could this be a option if we bid for direct replacement vs repair? Example 1/2hp -5Hp motors.

Answer 2. The total replacement is NOT the intent of this contract. Direct replacements would be preferred over repair; however, the most cost-effective proposal shall be utilized whether it is a repair or a replace, all as judged by the Parish. Contractor may provide separate recommendations for replacements and the Parish will determine the best economical path forward. That decision shall be final.
