**THREE (3) YEAR CONTRACT FOR CERTIFIED LABORATORY ANALYTICAL SERVICES  
TO PERFORM SAMPLE ANALYSIS FOR THE JEFFERSON PARISH DEPARTMENT OF  
ENVIRONMENTAL AFFAIRS**

The Jefferson Parish Department of Environmental Affairs is seeking a Laboratory to serve on a contractual basis as back-up support to perform laboratory analyses on samples including but not limited to wastewater, stormwater, groundwater, soil, and sludge. In the event the Parish Water Quality Laboratory and or Bacteriology Laboratory cannot perform required analyses due to unavailability of laboratory staff, missing or broken equipment or any other unforeseeable conditions, said support lab would perform such analyses.

Analyses shall be performed using any EPA approved method that achieves the required MQL and which is currently listed in 40 CFR Part 136 (see Appendix A) and provided that the Quality Assurance /Quality Control (QA/QC) requirements of the method that identifies the analyte are achieved. All QA/QC data shall be submitted with the analytical results. All analyses are to be completed in a standard 10 to 15-day turnaround. Analytical results must be provided no later than 21 days following receipt of the samples. Occasionally samples will be submitted with a request for expedited analysis or "rush turnaround". In this instance a 5-day turnaround for analysis completion and immediate analysis results may be requested.

Environmental laboratories submitting bids must be accredited in the state of Louisiana under the Louisiana Environmental Laboratory Accreditation Program (LELAP) for the specified parameter. The original laboratory contracted to perform the requested scope of testing must ensure that if any samples are subcontracted to a second environmental laboratory; that the second laboratory is also accredited to perform the requested scope of testing. As such, a current LELAP certificate must be submitted with bid, and should a bid be awarded, upon any recertification during the term of the contract.

Any instances beyond that of a force majeure causing samples to not arrive at a subcontracted laboratory intact and within the holding time (such as a wrong address provided to the courier, FedEx, etc. by the main laboratory) shall constitute a penalty. The main contracted laboratory shall be penalized by analyzing the replacement sample free of charge.

- The penalty for a second incidence would be analyzing the replacement sample free of charge in addition to a monetary fine of twenty-five dollars (\$25).
- The penalty for a third incidence would be analyzing the replacement sample free of charge in addition to a monetary fine of fifty dollars (\$50).
- Additional incidences shall result in analyzing the replacement sample free of charge in addition to further escalating monetary fines in increments of twenty-five dollars (\$25).

If the successful bidder is located outside of the New Orleans metropolitan area, the bidder must furnish all containers and pay all shipping costs for these analyses or include the cost of shipping in the bid and the bidder must be able to meet the holding times for the required analytes. If the successful bidder has a local laboratory they intend to use for receipt of samples via drop off or courier service; the day(s) of the week and hours of the day for sample pick-up via courier shall be submitted with bid submission.

If the successful bidder does not have a local analyzing laboratory, included with the bid must be a plan of action for meeting holding times for parameters with a holding time of 24-hours or less. Failure to submit this information with bid submission will result in a bid rejection.

Upon commencement of the laboratory contract, the successful bidding laboratory shall have personnel on site to receive samples directly from the Environmental field staff. The laboratory personnel shall inspect the samples as they receive them (in the presence of the Environmental staff), record the sample condition as per the Chain of custody (COC) and account for each sample bottle present prior to signing the COC.

Upon signing the COC a copy of the COC shall be presented to the Environmental field staff. If the receiving laboratory is a satellite or sub-contracted laboratory, the main contracted laboratory shall by way of email ([IndustrialPretreatment@jeffparish.net](mailto:IndustrialPretreatment@jeffparish.net)) notify the Environmental Affairs Industrial Pretreatment Division of receipt of samples at the time of their receipt. The sample condition and temperature shall be included in this email. If the transport of the samples to a sub-contracted lab is by courier, FedEx, etc., the tracking number shall be provided to the Environmental Affairs Industrial Pretreatment Division in the form of an email upon shipment by the main contracted laboratory.

The attached pages are a list of testing requirements required to satisfy the Wastewater Treatment Plant NPDES permits, the Industrial Pretreatment Program, Storm Water Program, and any emergency testing to satisfy Public Service requests or Inter-departmental assistance. The approximate number of analyses per parameter is based upon the approximate number of analyses required or anticipated annually.

Payment under this contract shall be for the actual number of samples and the type of analyses requested at the agreed upon submitted unit prices. Invoices for billing shall be submitted at the same time interval as the final assembled analysis reports. Invoice pricing, once set by the contract, cannot change for the duration of the contracts term and must be honored.

## **STANDARD INSURANCE REQUIREMENTS FOR BIDDING PURPOSES**

All required insurance under this bid shall conform to Jefferson Parish Resolution No. 113646 or No. 113647, as applicable. Contractors may not commence any work under any ensuing contract unless and until all required insurance and associated evidentiary requirements thereto have been met, along with any additional specifications contained in the **Invitation to Bid**. Except as where otherwise precluded by law, the Parish Attorney or his designee, with the concurrence of the Director of Risk Management or his designee, may agree on a case-by-case basis, to deviate from Jefferson Parish's standard insurance requirements, as provided in this Section. Vendors requesting deviation therefrom shall submit such requests in writing, along with compelling substantiation, to the Purchasing Department prior to the bid's due date. Any changes to the insurance requirements will be reflected in the bid specifications and addenda. Prior to contract execution and at all times thereafter during the term of such contract, contractors must provide and continuously maintain all coverages as required by the foregoing Resolutions, and the contract documents. Failure to do so shall be grounds for suspension, discontinuation or termination of the contract.

---

For bidding purposes, bidders must submit with bid submission a current (valid) insurance certificate evidencing the required coverages. Failure to comply will cause bid to be rejected. The current insurance certificate will be used for proof of insurance at time of evaluation. Thereafter, and prior to contract execution, the low bidder will be required to provide final insurance certificates to the Parish which shall name **the Jefferson Parish, its Districts Departments and Agencies under the direction of the Parish President and the Parish Council** as additional insureds regarding negligence by the contractor for the Commercial General Liability and the Comprehensive Automobile Liability policies.
